

Complete the following five problems, which come from the `complex.pdf` tutorial. As the schedule indicates, these problems are due on Day 04 (Wednesday). Hand them in on paper at the start of class. However, please attempt the problems immediately, so that you can better understand class on Day 03, and so that we can discuss them in office hours before the due date, if necessary.

- A.1.2
- A.2.1
- A.2.2
- (Don't do A.3.1, unless you really want to.)
- A.3.2
- A.3.3
