

Homework today is light.

A. Section 54 Exercise 1. (This is a short or medium-length exercise. My goal is to get you to think about one of the lemmas, over which we glossed today.)

You could also do Exercises 4, 5, 6 as extra practice, but I am not asking you to hand those in.

B. In the Groups tutorial on our course web site, read the third and fourth sections (Subgroups, Kernels and normal subgroups).
