

A. Section 55 Exercise 3, which is about matrices. (If you've already digested Corollary 55.7, then this is a short exercise. If you still need to study that corollary, then this exercise is of medium length.)

B. Section 57 Exercise 1, which is about meteorology. (This is a short exercise.)

C. Section 57 Exercise 2, which is about a surjective map from the sphere to itself. (This is a medium-length exercise.)
